Rivers and Harbors Bill Wil Carry Quarter of Million For Project

McCLELLAN NOW WORKING FOR MILITARY BELT ROAD

Many Honolulans Have Been Vis-Itting Washington and Some Saw President

By ERNEST G. WALKER (Mail Special to The Advertiser.) WASHINGTON, July 7.—Some nice little successes have been scored here or Hawali during recent days. The ppropriation of \$250,000 for the west reakwater in Kahului Harbor has been retained in the rivers and harors hill and will become law. Delerate Kalanianaole and others worked very hard to this end and deserve much credit, but the fact remains that Mr. George McK. McClellan was respossible for pursuading the senate to ndopt the amendment first and this made the final success possible. It certainly looked, when Mr. McClellan whatever could be expected for Kahului Harbor at this session of con-

The army bill, just reported to the senate, carries an appropriation of \$10,000 for investigating the matter of a military road in the island of Oahu. This is another enterprise that Mr. McClellan took up vigorously, alaround Onhu was introduced early in the session at the instance of Superintendent Forbes.

Supported by Macomb

Mr. McClellan some days ago had a hearing before the house military affairs committee, where he was sup-ported by General Macomb, head of nated if the senate would accept an amendment for such a road they would approve of it in conference and thus ake sure of its becoming law.

The matter was then pressed before the senate military affairs committee, of which Senator Chamberlain of Oregon is chairman. Mr. Chamberhein said it was impossible to consider the provision, unless there was an official estimate. Mr. McClellan finally obtained an official estimate from the war department that the road ould east \$1,000,000. This was placet before the committee but more excuses against action were forthcom-Mr. McClellan and General Ma mb had a heating there and the committee decided that there be more detailed information from sources before they would feel warding the expends ture of so much money. But it is recognized that a long step has been taken in favor of the road. The votirg of \$10,000 is as much as is usually accomplished toward such big enter prises after two or three years of agitation before congress.

Gas Bill Delayed

The Hilo gas bill is hanging fire in the senate committee on Pacific Islands and Porto Rico, of which Senator Shafroth is chairman, Governor l'inkham has cabled to Senator Shafroth, asking that action be withheld the arrival of Superintendent Forbes, now reported on the way to Washington.

he had been unable to do so, however, and he expected to present Judge Stuart's resignation on August 1. This would account for the failure of the searchers to find any of the bodies. The launch, say the officers, probably would sink, on account of her build and the heavy machinery she contained.

It is now thought almost certain that the little vessel was swamped in a heavy sea, and that its five occupants were drowned, that the boat sank and the bodies were enten by sharks.

No Reason For Opposition

"There is no reason for the Japanes community to oppose the noble desire of these Japanese-American citizens to join a patriotic body of the United States. A patriotic subject cannot serve two countries, and so even the Japanese government has allowed for eign born Japanese to select their na-tionality, to avoid double citizenship.

"Some boys, we are told, are per-plexed, and fearing that if they swear hey will fight against Japan, should the two countries become hostile, the Japanese community would, perhaps attack them. This perplexity seems to be natural for youth, but there is no need at all to fear about such a thing for we can surely say that the peace of the two countries will never be broken. Not only that, but if the American citizens of Japanese parentage join the patriotic bodies of America, the friendly relations of the two governments will become closer than ever.

With 6400 tons of cargo for Honoulu and Kahului, the Matson steamer Lurline sailed from San Francisco at six-thirty o'clock Wednesday evening, a lay late. She is expected to arrive

Wednesday morning.
For Honolulu she has 5026 tons and for Kahulni 1374 tons. On her voyage of June 28 the Lurline brought 5685 tons and on that of May 30, 7250 tons. was loaded altogether by strikebreakers. No news was received by Castle & Cooke yesterday as to the strike situation, but the Matson line will treat the union hereafter as though it did not exist, according to reports from San Francisco, saying to the men: "Come back to work if you wish; if there are vacancies we will employ ou;" but, at the same time, refusing

to treat with the union officially.

Inasmuch as the Lurline has a big eargo and the strikers are expected to return to work, the Islands' pilikin should be ended soon, unless more trouble arises as it did after the first strike had been ended by armistice. The Lurline probably will sail for Kahului Friday, but she will depart from Honolulu for San Francisco on time, at twelve o'clock noon August 1.

The American-Hawaiian steamer Texan has been delayed at San Francisco. She arrived at San Francisco from Honolulu and Hilo July 14, a week ago to day, and should have sailed within four days. The Mexican was at San Francisco ten days, however.

James L. Coke won't venture a prediction on the outcome of the presidential campaign, for he says that the situation in the mainland is not yet sufficiently developed to give a hint of the way the political cat is going to but he believes that the man who wins will know that he has been in a race.

Coke came back in the Matsonia yes terday from a trip to the mainland in connection with business for the public utilities commission. He went to Washington to take up the question of the control of railroads by the local ommission with the Interstate Commoree Commission. His suggestion that the Hawaiian body represent the national organization is now being con-

sidered in Washington.
On his way home Coke discussed with President Max Thiefan of the California State Railroad Commission the question of water distribution. The California commission has control of water distribution besides its other

duties. Coke believes that Hawaii should get the appropriations for a belt road in Oahu and the Kahului harbor work.

Acting Judge Advocate Hawaiian Department Says War Office **Decision** Settles Point

NEW DEFENSE MEASURE LEAVES STATUS ALONE

## Brigadier-General Johnson Accepts Interpretation of Rolling and Explains Position

Capt, Sames A. Gallogly, acting judge advocate of the Hawaiian Department, after looking into the question of the effect, of the decision of the judge advocate-general of the army, as printed in The Advertiser vesterday morning, finds that Brig-Gen. Samuel I. Johnson, as adjutant-general of the Territory, is not a mamber of the national guard, but a territorial official, pure and simple, without standing in the federal organization, such as the guard becomes under the new National Defense

Captain Gallogly declares that in his opinion the provision, mentioned in section 66 of the act, providing that adjutant-general of territories and the District of Columbia shall be appointed by the President, and shall be bonn fide residents of the territories in which they are so appointed, does not in any sense of the word change the general intent of the act, which is to keep the office of adjutant-general separate and distinct from the national guard, and as a state, district or territorial office only.

No Exception Is Made In an interview given yesterday afternoon, to a reporter of The Advertiser, Captain Gallogly corrected the impression that had gone abroad that the act made special exception in the case of the adjutant general of the

Territory of Hawaii.
"The whole mass of laws affecting the national guard and the army as a whole," said the acting judge "has been to indicate that the national law givers have felt that the office of the adjutant-general is separate and distinct from the national guard. Anthe judge advocate general of the arms says in the opinion which. The Advertiser printed this morning. the essential feature of the national guard is that it is an organization for the defense of the nation. The office of the adjutant-general with its well recognized and well understood duties, does not fall within this scope.

"In fact, as has been pointed out in many previous opinions, the adjutantgeneral of a State, Territory or Dis-trict is really in the position of 'an organizer of victory.' His duties are such that there is no place for him in the field. The make up of the army does not include him.

One Bank Not Included

"The new National's Defense Act takes full cognizance of this fact, and realizing that to take him from the service of the State at the time of crisis would be a mistake, it also realizes that there is no obligation upon the national government to pay Lim. This does not apply to the position of assistant to the adjutant-general

here. It may make clearer the atti-tude of the government when I say that under the law he is a member of the national guard and entitled to draw his pay as a major, \$250 a year, or one half the pay of a captain in active command of a company, for he would have to go to the front should the guard here be called upon to do so. In other words the government pays the guardsmen as a sort of insurance that it will have an efficient body of men ready for service should the need

General Johnson Shows Status

When Adjutant-General Johnson was told of Captain Gallogly's opinion, he said:

"Doubtless Captain Gallogly is right. Certainly I do not wish to dispute legal or technical knowledge, but so far as I am personally concerned I hold a commission as brigadier-general in the territorial militia. Incidentally, I am also chief of the Governor's staff, so that I have two effices under the Territory—chief of staff and brigadier-general I hold, or shall hold, the general of the national guard, Under the President I hold, or shall hold, the position of adjutant-general. As adjutant-general I have no authority over the guard—I am what might be called the Governor's mouthpiece or, if you prefer it, the Governor's clerk. # CATHOLIC PRIESTS GUESTS AT LUAU AFTER RETREAT

The annual retreat of the Catholic lergy of the Territory will come to a close at three o'clock this afternoon. The priests have been in retreat, that is, religious meditation since last Sunday and, with the exception of one priest who remained on each of the outside islands, all the members of the clergy have been gathered in Honolulu. The Huwaiian women of the local congregation have arranged a luau on the grounds of the Catholic Cathedral and as soon as the retreat closes this after noon the good Fathers will be given the treat of their lives. Some of the priests will return to their Mani missions in the Claudine this evening, while the Hawaii and Kauni Fathers

# BBY-HASTIE

Seldom has Kauni seen a prettier wedding than that of Harry J. Eby to Eva M. W. Hastie on the evening of July 12, at the Hastie home, Electe says last Tuesday's Garden Island The service, performed by Rev. J.
M. Lydgate, was simple and impressive,
while the bridal couple won all hearts
by the unassiming beauty of the bride and the frank manliness of the groom The arrangement of the bridal veil which was skilfully disposed to show the beauty of the bride's hair, and at the same time form a sort of queenly crown at the back of the head, with a

out the favorable comment of all connaisearn, Ant think Delicious refreshments were served immediately after the ceremony, in the course of which Mr. Lydgate proposed a toast to the bride and the wedded couple in a facetious vein of humor and

band or fillet across the forehead, called

banter that pleased every one.

The bridal bouquet, when thrown, fell to the eager hands of Miss Strain, and she promises not to be recreant to The departing couple were showered with a storm of confetti as they broke

through the merry crowd and escaped into the night. The decorations were singularly ar tistic and effective, and the refresh-

ments were such as the "Hastie girls" are well known to be always good for. There were some 45 guests, all personal friends of the family.
